PERSONAL DETAILS

Backend Developer focused on Java and Spring Boot, specialized in Open Banking and cloud-native applications on AWS. Experienced in building microservices, serverless solutions (ECS, Lambda, API Gateway), and secure APIs using OAuth 2.0 and OpenID Connect. I follow Clean Architecture, SOLID principles, and DevOps practices to deliver scalable, resilient, and maintainable systems – ready for high-demand environments.

My background includes developing distributed applications using AWS services (ECS, EC2, S3, Lambda, DynamoDB) and managing the full lifecycle of regulatory APIs. I'm committed to building robust, sustainable solutions aligned with cloud architecture best practices, with a strong focus on performance, security, and maintainability.

WORK EXPERIENCE AND ACADEMIC RESEARCH

TecBan — Backend Developer III

12/2023 - TODAY    

- ❖ Designing and deploying applications on AWS (ECS, EC2, API Gateway, S3, DynamoDB).
- ❖ Developing microservices using Java Spring Boot and TypeScript (Node.js).
- ❖ Open Finance API implementation in compliance with Open Banking Brazil regulations (FAPI, OpenID Connect, OAuth 2.0).

TecBan — Backend Developer I & II

06/2021 - 12/2023 

- ❖ Supported Open Finance Brazil adoption among institutions, focusing on integration tests and solution delivery.
- ❖ Worked extensively with API Gateway, ECS, EC2, and DocumentDB services on AWS.

Personal Project: EchoDev Newsletter — Fullstack

PRODUCING SINCE 01/2025 

Built with Java, Spring Boot, and SOLID principles. Cloud-ready and fully deployable in AWS (ECS, API Gateway), demonstrating cloud-native application development best practices.

Personal Project: Cyber Supply — Backend

PRODUCING SINCE 02/2020 

Colégio Brasília de São Paulo, Sao Paulo — Support Analyst

04/2019 - 03/2021

SKILLS

- Project management
- Time management
- Teamwork
- Clean communication
- Strategic and business planning
- Java with SpringBoot
- Clean Architecture, Design Patterns
- AWS - EC2/ECS, API GW, S3, Lambda, DynamoDB, etc.
- Agile teamwork
- Open Banking - FAPI, OIDC, DCR, OAuth 2.0, Regulatory APIs

HIGHER EDUCATION

São Judas Tadeu University, Sao Paulo — Bachelor

02/2019 - 12/2022

Bachelor of Computer Science: Computer Science

FIAP, Sao Paulo — Postgraduate Degree

05/2024 - 04/2025

Software Architecture
